DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stanley C. Spooner on 03-02-2004.

The application has been amended as follows:

In claim 14, line 2, delete "or regions" after drift region.

In claim 15, line 2, delete "or regions" after drift region.

Allowable Subject Matter

2. Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance:

US 5,466,965 appears to be the closest prior art reference. However, this reference fails to teach that the narrow bandgap region is located adjacent to the avalanche region in order to generate within the narrow bandgap region a tunnel current which is injected into the avalanche region. Prior art of record fails to teach or suggest to incorporate these limitations into above reference to arrive at the claimed device.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 2811

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Donghee Kang whose telephone number is 571-272-1656. The examiner can normally be reached on Maxiflex.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Eddie C Lee can be reached on 571-272-1732. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
